Westerville, Ohio 43081

For questions, call (614) 525-4787.

Community Meeting Notice

The Impact of Aeration Systems on Storm Water Pollution

Franklin County Public Health and the Franklin Soil and Water Conservation District invite you to attend a meeting to learn more about our activities related to Franklin County's National Pollutant Discharge Elimination System (NPDES) Storm Water Permit.

The meeting will raise awareness about the Illicit Discharge Detection and Elimination (IDDE) storm water program and the impact of failed or failing Household Sewage Treatment Systems (HSTS) on storm water quality. Topics will cover: the NPDES permit and requirements; future requirements of homeowners with failed or failing aeration systems; current problems in storm water quality; the needs for water quality improvement; and more.

The same meeting is being offered in four areas around Franklin County. No RSVP necessary. Please see the other side for meeting dates and locations.
