**NOTICE: Start of Aqua Ohio Waterline Replacement Project  
TENNYSON COURT 2 INCH WATERLINE REPLACEMENT**

Dear Resident:

We are pleased to advise you that waterline construction will start at your area on July 14<sup>th</sup>, 2025. The project includes the installation of 400 linear feet of 2" HDPE SDR-9 CTS with TRACER WIRE, on Tennyson Court, including 1 new blow-off assembly. DLC Equipment Company, the contractor, anticipates this work will be completed by the end of August with typical work hours between 7 a.m. and 5 p.m. The contractor will also replace the Aqua owned portion of your service line, which typically ends in the public right of way. This requires some excavation within and up to the right of way limit in front of your property.

On-street parking will be restricted during construction to allow adequate space for the contractor to perform the work. Restrictions on parking will be posted 24 hours prior to the start of work.

If we encounter an Aqua owned lead water service line during construction, we will replace it and advise you. If we encounter a privately-owned lead water service line, we will advise you and recommend specific actions that you should take to reduce exposure to lead from the lead water service line.

The new waterlines will improve water service reliability and fire hydrant flows as part of our ongoing infrastructure improvement program. Once completed, your water service will be transferred to the new line. You will be notified in advance via a "door hanger" of any planned water service interruptions.

Initial restoration of grass areas will be performed following installation of the waterline and service transfers. Final restoration is expected to be complete by summer of 2025, weather permitting.

A pre-construction videotape of the site will be made to assure that your property is restored to original or better than original conditions. If you have any questions, please contact our Maurice Hampton, Aqua Construction Coordinator at 614.882.6586, Ext 50557. Aqua appreciates your patience during the construction of this important waterline improvement project.

Sincerely,

A handwritten signature in black ink that reads "Maurice Hampton".
